

A vintage map titled "UNIVERSALE DESCRIZIONE DI TUTTA LA TERRA CONOSCIUTA FIN QUI" (Universal Description of All the Earth Known Until Now) serves as the background. The map is circular and features two winged figures at the top corners, one on the left and one on the right, looking towards the center. The map shows various geographical features, including continents, oceans, and sailing ships. A large, semi-transparent white oval is overlaid on the map, containing the event information.

Please join us for our second evening
making elegant paper from vintage maps.
Free! No experience necessary!
Materials will be supplied.

Crafter Hours
