GREETING

The 1911 Edition of the Whittier, La Habra, Santa Fe Springs, Los Nietos, Pico and Rivera district directory is herewith presented to the public, and it is believed that it will meet with the hearty approval of all who have occasion to use it. No expense has been spared to make this directory complete in every sense of the word.

The territory covered by this directory comprises all of the districts tributary to the above named towns and localities, and one of the principal objects of the work was to bind these districts more closely and impress the inhabitants with the fact that they are interested in one common object, to promote the interests of the community.

The advertisers in this directory represent the energy and push of the community, and it is a pleasure for the publishers to have the opportunity to make the public acquainted with them through these pages. The advertisers have made this book possible, for without their support it would have been impossible to have published the directory, as the publishers have received no support from any civic bodies.

The Hall Mercantile Agency could conceive of no better way to introduce it's self to the people generally than through the medium of this directory, and has, therefore, been willing to compile this book without hope of remuneration other than the good will of all who may have occasion to use it. The object of the Agency is to help each person living within the territory it covers, to put their credit standing on a more firm foundation with the following results: You help yourself, your merchant, your town and your country.

Thanks are extended to the patrons for their generous support, as well as to all others for their co-operation, without which it would be impossible to publish a reliable directory.

THE HALL MERCANTILE AGENCY.
NOTE

A short note of explanation of the method to be used in locating persons outside the city limits of Whittier and the boundaries of Rivera:

The heads of the households are designated by a star (*) following their name, and each house has a number with reference to the map, as follows, for example:

Smith, John, wife Mary, R. F. D. No. 2, Box No. 6, Santa Fe Springs Rd. 6-J-No. 8*. This would indicate that John Smith lived on the Santa Fe Springs Rd. and his cross-section number with reference to the map is 6-J and the number of his house is No. 8. You will find the numerical sections of the map at the sides and the letters at the top and bottom. In tracing across the map according to the letter and number after a name and stopping at the section where these intersect you will find the number of the house for which you are looking.

Resources of the District

This territory is one of the richest in the state, for the products of the country show that in no district is their reaped more profit per acre. The land is rich and one feature that appeals to the farmer is the fact that there is not as much need for fertilizing as in a great many other districts in Southern California which are prosperous and thickly inhabited.

The resources are so numerous that the country does not have to depend upon one of two commodities for its support. And while a poor crop is rarely known owing to the sheltered location, the rich soil and bountiful water supply, there is some income all the year around.

In no district in Southern California are there more prosperous farmers and business men, and in no district is there more unity of action for the general uplift of the community than is found here.

The FAMILY
The latest in Motion Pictures—Absolutely clean and moral.

The reason why we call our amusement house The FAMILY:
C. H. Keipp, Proprietor  Mrs. C. H. Keipp, Door Keeper
C. H. Keipp Jr., Operator & Electrician  C. E. Keipp, Pianist

A Residence in Whittier

Probably a larger number of people own their homes here than in any other town of its size in the state.

ROWLEY, the House Furnisher
New Furniture, Hardware and Tinware. Second-hand goods bought sold and exchanged. Sewing machines sold and rented. We sell the Honey-moon sewing machine: cheapest ball bearing sewing machine on earth. Prices Talk. Come and see for yourself. Quick deals and small profits.
