Good evening,

I am a resident of the city of Whittier and have heard news of a project taking place in Uptown Whittier regarding the removal of trees in the area. 113 trees.

I have frequented Uptown in all my 26 years of living in Whittier and the trees are what make uptown beautiful. To remove them for a “beautification project” would be such a disastrous choice and a dishonest concept all together. Just as Whittier is known for its trees so is Uptown. To get rid of our trees is to get rid of this town’s pride and joy.

Please reconsider,

Miguel Sandoval
