Good afternoon,

I have been living in uptown Whittier since 2010 and one thing I love about uptown is the 'TREES'!!!! Yes the landscape is one beautiful thing about Uptown and you want to KILL 113 trees to replace them with small trees. What's the point on that, doesn't make any sense.

What are you all thinking?!!! That is not OK.

Those are living trees that have been alive and part of uptown for many years, probably they been there longer than you been part of the Whittier City Council. DON'T KILL THE TREES!!!

Trees provide oxygen, remove air pollution, reduces urban heat, promote a strong economy, etc. etc. The small trees plant tem somewhere else.

DON'T KILL THE TREES!!!!

YOU SEE THE BEAUTY HERE!!!

Thank you,

Felipa Del Real
