To whom it may concern.

My name is Sandra C.

I am writing you tonight due to the trees being “cut down” on Greenleaf Ave.

I am a resident and have been a resident in this beautiful city for 30 years!

If I may give my two cents on this matter,

With all that is going to be put into this project

Money sweat and a whole lot of disappointment.

Why not fix the streets that desperately need attention?

Why not fix the sidewalks? Or make better change to this city for the better not the worse.

Example a botanical garden.

Why make the city ugly when it will cause people to leave, visit another town instead.

I happen to know a ton of people who love this city specifically for all the trees.

How can we as a city have a street called “Greenleaf” and it not have one leaf on it?

It’s so disappointing when we need trees for clean air. And let’s face it **ALL THESE TREES ARE THE REASON FOR VISITING OR LIVIN HERE!**

It is such a beautiful city with them I would hate to see it without the beautiful scenery that us.

Thank you so much for your time!
