Dear City Council Members,

I am very dismayed and upset to learn that you have approved the removal 113 trees along Greenleaf Ave. in Uptown from Hadley to Wardman Streets as part of the Uptown Streetscape 'Beautification project.

Whittier is reknowned for its beautiful trees. Replacement of these mature trees with small young trees will take decades to achieve the same full-growth benefits we have today.

Please also consider doing an environmental assessment to determine the damage that will result from this action by removing all of the shade, temperature control, and pollution/carbon exchange.

We love our trees!! Please reconsider your brash actions!

Sincerely,
Pamela Hill
Whittier, CA
