My husband and I want the beautiful old trees to remain in place. We think it would be detrimental to our eco system if they are removed. Think of all the birds, where would they go?. We are home owners here in Whittier and only want the best for our community. We strongly advice to keep the tress in place. Our names and phone numbers are: Moises Tapia (323) 304-1368 and Martha Lomeli Tapia (562) 207-8384
