Dear Mr.Garcia,

I trust this message finds you well and in good spirits. I am writing with a sincere concern and an optimistic plea regarding the proposed plan to remove the magnificent trees that grace our city's landscape.

The beauty these trees provide is not just aesthetic; it's a source of pride for our community. Each tree stands as a testament to the natural charm that makes our city unique and welcoming. I believe there's a wonderful opportunity to find solutions that maintain this beauty while addressing any underlying issues.

Rather than replacing these majestic trees with stick-like alternatives that require an extensive three-year construction period, I encourage exploring alternatives that uphold the aesthetic integrity of our surroundings. Our city's greenery not only enhances the visual appeal but also contributes to the overall well-being of its residents.

I am confident that, with your leadership, we can find a resolution that balances the need for change with the preservation of our city's natural allure. Your consideration of this matter is highly appreciated, and I look forward to a positive outcome that keeps our city's beauty intact.

best regards,

Sara F.
