To whom it may concern,

As a resident of Whittier it was brought to my attention the beautification process that is soon to come to the streets of Whittier. I urge you to reconsider this as these trees bring life to the uptown area.

These trees are detrimental to the air quality and Whittier appeal that we all know and love. The removal of these tree's will have negative impact for the business that are adjacent to them due to lack of customer access during the removal process.

Please consider other ways to maintain tree's roots and keep the trees where they are.

Thank you,
Christa Beckham
