Good afternoon!

I appreciate the city council's decision to hold another study session this evening, August 20, 2024; and, strongly support an approval of the Promenade design that avoids the unnecessary removal of the tree canopy on Greenleaf Avenue. It is possible to achieve the goals for the Uptown area AND retain the majority of the mature trees with a long term plan of replacing trees with more diverse species over time.

It is my desire to see the four city council members to take the bold step to pass a resolution to change the direction of this long overdue project. The matter has been studied enough. The citizens have spoken. Let's move forward.

Thank you.
