

RECEIVED ON: **November 12, 2024**

Council Meeting: 11/12/2024
Agenda Item No: 13.A

To whom it may concern,

Please don't raise the water bill. I am single female senior citizen without receiving any income at all. Here you have people on section 8 taking advantage of the system making money doing illegal activity, and having everyone coming to their apt, home, or duplex taking showers all day and night. I'm very cautious on water because it's very valuable commodity that people don't realize until they no longer have it. It's very difficult for me watching every drop being diagnosed with OCD. I used to take two showers a day using one bar of soap daily, I can no longer do that because of f being on a real tight budget now, and trust me it's a miserable life struggling and watching every dime and drop of water you use. There are many seniors in the same situation as myself. I also have been diagnosed with Anxiety, Depression, PTSD, ADD, Dyslexia, and Bipolar. I am doing the best I can day by day being alone. All my family members have passed away. I don't qualify for SSI or SSDI having worked for Los Angeles county for 35 years and I had a terrible nervous breakdown in 2019 and walked off my job in human resources being harassed from the time I walked in until the time I clocked out. Thank you and I pray you read my letter and take this into deep consideration.

Sincerely,

TA
